

Product Sheet

Tajima TMBP2-SC

Category: Embroidery machines

The TMBP2-SC is an advanced single-head embroidery machine with a cylinder arm, designed for maximum flexibility and performance

With 15 needles, a generous embroidery area of 360 x 500 mm and high stability, it is ideal for embroidering names, emblems and details on caps, sweaters, jackets, bags and other garments.

- Embroidery capacity 360 x 500 mm – for larger designs
- Up to 1000 stitches/min – fast and accurate
- Improved cap frame – stability and detail

Product description

Tajima TMBP2-SC – 1-head embroidery machine with 15 needles

Compact and powerful – perfect for both businesses and shops

Despite its compact size, the machine delivers outstanding results and is used by leading brands and fashion houses worldwide. With its improved cap frame and stable construction, it enables cap embroidery at speeds of up to **1000 rpm**, with minimal needle breakage and pattern displacement.

- Large embroidery capacity – Embroidery area of 360 x 500 mm, perfect for larger designs
- High speed and precision – Up to 1000 rpm for fast and sharp embroidery
- Smooth cap embroidery – Improved cap frame for stability and precise details
- Slim cylinder arm – Perfect for small and tubular products such as pockets and sleeves
- 12.1" touch screen – Large and intuitive LCD screen with icon-based interface
- USB & LAN connection – Easy to load embroidery designs digitally
- New thread trimming function – Shorter thread ends and 40% faster thread trimming
- Automatic pattern placement correction – Easily adjust from the screen without having to re-frame

Included with purchase

- LED lighting for optimal visibility
- Embroidery hoops – including two of the largest hoops that fit the machine
- Cap equipment for professional cap embroidery
- Stable stand for a complete workstation

Customise and expand your embroidery capabilities

The TMBP2-SC can be customised with a wide range of options, including sequin and bead units, laser positioning and advanced embroidery frames for pockets, socks and specialised products.

Whether you want to start a new embroidery business or upgrade your current production, the TMBP2-SC offers world-class performance and quality.
