Tajima TMBP2-XC

Category: Embroidery machines

Tajima TMBP2-XC – A powerful single-head embroidery machine with the largest possible embroidery area

The TMBP2-XC is Tajima's single-head embroidery machine with the largest embroidery area in the range. With a maximum embroidery area of 550 x 600 mm, this machine can handle large embroidery projects on garments such as dresses, sports jerseys, tablecloths, curtains and bedding.

The machine also supports a wide range of hoops, making it possible to embroider on a variety of products, from caps and bags to smaller, more detailed items.

- Embroider large and detailed designs on dresses, sweaters, curtains and other textiles
- Work with a wide variety of products – from caps and bags to wide textiles
- Reduce production time with high embroidery speed and fast thread cutting

Product description

A powerful single-head embroidery machine with the largest possible embroidery area

The TMBP2-XC is Tajima's single-head embroidery machine with the largest embroidery area in the range. With a maximum embroidery area of 550 x 600 mm, this machine can handle large embroidery projects on garments such as dresses, sports jerseys, tablecloths, curtains and bedding.

The machine also supports a wide range of hoops, making it possible to embroider on a variety of products, from caps and bags to smaller, more detailed items.

The TMBP2-XC combines flexibility, high capacity and user-friendly technology, making it ideal for both large and small production runs.

Increase your production capacity and flexibility!

Description

- Embroider large and detailed designs on dresses, sweaters, curtains and other textiles
- Work with a wide variety of products – from caps and bags to wide textiles
- Reduce production time with high embroidery speed and fast thread trimming
- Customise the machine to your needs with a variety of frame options

Why choose the TMBP2-XC?

- The industry's largest embroidery area – up to 550 x 600 mm, perfect for large embroidery projects
- Expandable work area – With the X-extension Unit (optional), the embroidery area can be expanded to 550 x 1,200 mm
- High production capacity – Up to 1,200 rpm for fast and efficient embroidery
- Customisable frame range – Switch between different frames to embroider on caps, bags, socks and other small products
- 12.1-inch touch screen – Large, intuitive interface with icon-based navigation
- Automatic thread trimming – 40 per cent faster than previous models and produces shorter thread ends
- Design positioning – Adjust the pattern placement directly on the screen without having to re-frame
- USB & LAN connection – Easy file transfer for embroidery designs

What's included?

- LED lighting for optimal visibility
- Embroidery hoops – including the largest hoops that fit the machine
- Cap equipment for professional cap embroidery

- Stable stand for maximum working comfort

Tajima is the world leader in embroidery machines, and the TMBP2-XC is used by the industry's biggest brands.

Contact us today for more information on how this machine can enhance your embroidery production.

Please note: Embroidery area and speed may vary depending on production conditions and materials.
