Tajima TFMX-IIC Type 2

Category: Embroidery machines

Tajima TFMX-II C – The standard model that delivers premium embroidery

The Tajima TFMX-II C is a proven and reliable multi-head embroidery machine that combines simplicity with professional performance. With up to 8 heads and 15 needles per head, it is the perfect solution for companies looking to streamline their embroidery production and handle everything from sportswear and workwear to caps and other finished garments.

- High production capacity – Up to 8 heads and 1,000 rpm for fast and accurate embroidery
- Perfect for mass production – Embroider multiple identical products simultaneously with synchronised heads
- Stronger embroidery arm – 3x stronger than standard to handle heavy materials such as jackets and bags

Product description

Tajima TFMX-II C – The standard model that delivers premium embroidery

The Tajima TFMX-II C is a proven and reliable multi-head embroidery machine that combines simplicity with professional performance. With up to 8 heads and 15 needles per head, it is the perfect solution for businesses looking to streamline their embroidery production and handle everything from sportswear and workwear to caps and other finished garments.

It is easy to use, powerful and built to deliver results with the highest precision.

Description

- High production capacity – Up to 8 heads and 1,000 rpm for fast and accurate embroidery
- Perfect for mass production – Embroider multiple identical products simultaneously with synchronised heads
- Stronger embroidery arm – 3x stronger than standard to handle heavy materials such as jackets and bags
- Stability and precision – Tajima's renowned technology provides a smooth and professional finish
- Customisable – Support for sequins, beads and special effects
- Perfect cap embroidery – Improved three-point locking for reduced needle breakage and better fit
- User-friendly – Easy to use, even for beginners
- USB & LAN connection – Load embroidery designs in seconds

What's included?

- LED lighting for better visibility
- Embroidery frames – including the largest frames that fit the machine
- Cap equipment for professional cap embroidery
- Stable stand for a complete workstation

Maximise your production and minimise quality issues

With the TFMX-II C, you can:

- Streamline production and shorten lead times for embroidery orders
- Reduce quality issues such as thread cutting errors and uneven stitches
- Increase durability with an extra-strong construction for heavy garments
- Allow even inexperienced operators to handle the machine with ease

Note The embroidery area and speed may vary depending on production conditions and machine model.
