Eastman Chickadee II 230V

Category: Cutting machines, Hand-held cutting machines

Eastman Chickadee – The Most Agile and Powerful Rotary Hand Cutter

The Eastman Chickadee Model D2 is the smallest and most popular rotary hand cutter on the market, perfect for those who want to upgrade from manual cutters or smaller cutting tools.

- Compact and powerful – The smallest rotary cutter with 50% more power than its competitors.
- Lightweight and Ergonomic – Very low weight (0.85 kg) reduces operator fatigue.
- Precise and versatile – Available with round, hexagonal and four-sided blades for different materials.

Product description

Eastman Chickadee – The Most Flexible and Powerful Rotary Hand Cutter

The Eastman Chickadee Model D2 is the smallest and most popular rotary hand cutter on the market, perfect for those who want to upgrade from manual cutters or smaller cutting tools.

With 50% more power than other handheld knives of the same size and 25% greater cutting capacity, the Chickadee delivers fast, efficient and accurate cutting. Its streamlined and lightweight design makes it easy to handle and reduces operator fatigue, even during long cutting sessions.

The Chickadee is the optimal tool for cutting thin to medium-thick materials and is used worldwide in textile production, garment manufacturing and technical applications.

Description

- Compact and powerful – The smallest rotary cutting machine with 50% more power than its competitors.
- Lightweight and ergonomic – Very low weight (0.85 kg) reduces operator fatigue.
- Precise and versatile – Available with round, hexagonal and four-sided blades for different materials.
- Built-in sharpening function – Always ensures a sharp cutting blade for the best precision.
- Perfect upgrade – A convenient alternative to manual shears and smaller cutting tools.

Technical Specification

Machine Specifications

Engine type	• 110V, 1-phase, 50/60 Hz • 220V, 1-phase, 50/60 Hz
Effect	0.11 hp
Weight	0.85 kg
Leaf size	5.72 cm
Cutting capacity	1.27 cm
Leaf types	• Standard: Round blade • Optional: Hexagonal or four-sided blade for difficult-to-cut materials
Optional	• Pressure foot (standard) • Ball point foot, long handle (optional)
