DiDO Convection oven with drawers

Category: Textile printing accessories

DiDO PRO & DiDO SHOP – Efficient and energy-saving hot air ovens for professional textile drying

The DiDO series offers compact and energy-efficient drying ovens for digital textile printing. With even heat distribution and advanced air circulation, they dry water-based ink gently and efficiently.

The independent drawers provide flexibility, while the intuitive touch screen and automated functions ensure smooth production. Perfect for shops, print shops and textile laboratories that want high quality with low energy consumption.

- Efficient drying – Even heat distribution for water-based ink on dark fabrics.
- Energy efficient & compact – Low consumption and space-saving design.
- Independent drawers – Individual timer, LED indicator and audible alarm.

Product description

DiDO PRO & DiDO SHOP – Efficient and energy-saving hot air ovens for professional textile drying

The DiDO series offers **compact and energy-efficient drying ovens** for digital textile printing. With **even heat distribution and advanced air circulation**, they dry water-based ink gently and efficiently.

The **independent drawers** provide flexibility, while the **intuitive touch screen** and automated functions ensure smooth production. Perfect for **shops, print shops and textile laboratories** that want high quality with low energy consumption.

Description

- Efficient drying – Even heat distribution for water-based ink on dark fabrics.
- Energy efficient & compact – Low consumption and space-saving design.
- Independent drawers – Individual timer, LED indicator and audible alarm.
- Advanced air circulation – Even drying with efficient ventilation.
- User-friendly – Touch screen with automated heating and shutdown.

DiDO PRO – Powerful drying solution for professional production

DiDO PRO is a high-performance hot air oven designed for intensive use and high capacity. With six independent drawers and a capacity of up to 60 garments per hour, it is ideal for businesses that require fast and efficient drying.

The advanced air circulation and precise temperature control make it particularly suitable for delicate materials such as Lycra, wool and silk. The oven has individual timers and alarms for each drawer, making it easy to handle multiple jobs at the same time.

DiDO PRO is a reliable and economical solution for businesses that need consistent quality and optimal production capacity.

Technical Specification

Machine Specifications	
Excitement	400V 3-phase+N+PE
Effect	9.3 kW
Maximum operating temperature	180°C
Number of boxes	6 pcs
Box dimensions	700 x 680 x 90 mm
Oven measurements	1184 x 833 x 1667 mm
Shipping weight	300 kg
Capacity	Up to 60 garments per hour
