Pfaff 3811

Category: Industrial sewing machines

PFAFF 3811-16/65 – Integrated workstation with edge knife

The PFAFF 3811 is a high-performance machine for gathering and edge trimming. The machine delivers consistent quality and can gather seams up to 40% of their original length. With an edge knife and touch panel, it is both efficient and easy to use.

- Edge knife
- Touch panel
- Differential feed

Product description

PFAFF 3811-16/65 – Workstation for gathering and edge trimming

The PFAFF 3811 is an advanced workstation that combines gathering and edge trimming in a single machine. With differential feed, seams can be gathered up to 40% of their original length, while the edge knife provides clean and precise edges. The machine is easily controlled via a touch panel and offers a stepless gathering degree between 0–99%. Programmable sequences make setup quick and efficient, making the PFAFF 3811 a flexible and reliable solution for professional production.

Description

- Edge knife – efficient trimming
- Touch panel – easy control
- Differential feed – precise gathering
- Stepless gathering ratio – 0 to 99%
- Programmable sequences – quick setup

Technical Specification

Machine Specifications

• Needle system	4463-35
• Needle size	Nm 80–110
• Maximum speed	3,200 stitches/min
• Max. stitch length	3–4 mm
• Overfeed lift	4–8 mm
• Stitch	401 (chain stitch)
• Press foot lift	up to 7.0 mm
• Workspace	260 x 130 mm
• Connection	230 V, 50/60 Hz
