Global WF 1510-65 series – Long-arm walking foot machines for professional sewing

The WF 1510-65 series is designed for demanding sewing tasks in heavy materials. With 65 cm of working space, robust construction and smart features, these machines combine power, precision and efficiency.

- Extra-large working space
- Powerful feed
- High flexibility

Product description

Long-arm walking foot machines for professional sewing

The WF 1510-65 series is designed for demanding sewing tasks in heavy materials. With 65 cm of working space, robust construction and smart features, these machines combine power, precision and efficiency.

- Extra-large working space – a full 65 cm for large materials and projects.
- Powerful feed – walking foot with adjustable foot control for even seams in heavy materials.
- High flexibility – available in both 1- and 2-needle versions.
- Smart automation – electric thread cutter, reverse tack and pneumatic presser foot lift.
- Built for professionals – stable construction and reliable performance for long-term use.

Models:

WF 1515-65

- Long arm, 1-needle walking foot machine
- Stitch length: up to 9 mm
- Adjustable alternating foot stroke
- Equipped with large vertical gripper housing
- Pneumatic presser foot lift and reverse tack
- Working space: 65 cm

WF 1515-65 AUT

- Same as WF 1515-65
- Electric wire cutter
- Automatic speed limitation when adjusting foot switch

WF 1516-65

- Long arm, 2-needle walking foot machine
- Stitch length: up to 9 mm
- Adjustable alternating foot stroke
- Two large vertical gripper houses
- Pneumatic presser foot lift and reverse tack
- Working space: 65 cm

WF 1516-65 AUT

- Same as WF 1516-65

- Electric wire cutter
- Automatic speed limitation when adjusting foot switch

Technical Specification

Machine Specifications

Max. sewing speed	2500 stitches/min
Stitch length	up to 9 mm
Presser foot lift height	16 mm
Needles	1 or 2
Automatic thread cutter	Optional (AUT)
Automatic presser foot lift	Yes
Automatic start and end locking function	Yes
