JUKI DDL-8000A

Category: Industrial sewing machines

JUKI DDL-8000A – Industrial sewing with next-generation performance

The JUKI DDL-8000A combines speed, precision and intelligent features in an integrated and compact unit. With automatic thread trimming, presser foot lift and voice-guided operation, you get a smooth and efficient work process. Choose between a semi-dry or minimally lubricated model – both with a focus on clean sewing, high reliability and optimal quality.

- Direct drive and integrated control panel
- Semi-dry or oil-saving lubrication
- Automatic thread trimming and presser foot lift

Product description

JUKI DDL-8000A

With the DDL-8000A, JUKI sets a new standard for efficient and reliable sewing. The machine combines high speed with advanced technology in a compact design, where everything from the control panel to the motor is integrated directly into the machine head. It is quiet, energy efficient and equipped with smart features such as automatic thread trimming, presser foot lift and voice-activated guidance.

The DDL-8000A is available in two versions – a semi-dry model for delicate materials that require an oil-free environment, and a model with minimal lubrication for heavier production. Regardless of the version, the result is the same: cleaner sewing, fewer interruptions and better workflow. Perfect for those who want to maximise both quality and productivity in their sewing process.

Description

- Direct drive and integrated control panel – less vibration, lower noise
- Semi-dry or oil-saving lubrication – minimises the risk of oil stains
- Automatic thread cutter and presser foot lift – faster workflow
- Speed 5,000 stitches/min – high production capacity
- USB ports and voice guides – modern and user-friendly

Technical Specification

Machine Specifications

Model: DDL-8000A-MS (semi-dry)

• Application	Medium weight (MS)
• Maximum speed	5,000 steps/minute (MS)
• Press foot lift	Manual 5.5 mm
• Power supply	1-phase 200–240V
• Features	Wire cutter, automatic lift, LED light, USB, voice guidance

Model: DDL-8000A-SH (low oil consumption)

• Application	Heavyweight (SH)
• Maximum speed	4,500 strokes/minute (SH)
• Press foot lift	Auto 8.5–13 mm
• Power supply	1-phase 200–240V
• Features	Wire cutter, automatic lift, LED light, USB, voice guidance
