#### Battistella Plutone – Automatic steam generator

PLUTONE is a professional steam generator with continuous steam production. With a 5-litre stainless steel boiler, space for two irons and external filling with a vibration pump, it is ideal for long-term operation.

- Connection for two irons
- Continuous steam
- Compact design

## Product description

### Battistella Plutone – Professional steam generator for continuous operation

PLUTONE is a powerful and reliable steam generator developed for professional use. The stainless steel 5-litre boiler delivers continuous steam and can power two irons simultaneously, making it ideal for intensive work in studios and production environments. With external filling via a vibration pump, compact design and low weight of only 22 kg, PLUTONE combines high capacity with easy handling.

#### Description

- Connection for two irons – up to 2x 800 W
- Continuous steam – 5 L stainless steel boiler
- Compact design – only 22 kg
- External filling with vibration pump
- Built for professional use
