

Product Sheet

Rotondi Igos 25-2

Category: Pressing equipment

ROTONDI IGOS 25/2 – Dual heating elements for high capacity

IGOS 25/2 is a steam generator with a 24.5-litre boiler and dual heating elements, providing flexibility and high capacity. Built to PED standards for long life in industrial environments.

- Double heating elements
- Steam production: up to 31.2 kg/h
- Automatic water level control

Product description

ROTONDI IGOS 25/2 – High-capacity steam generator

ROTONDI IGOS 25/2 is a powerful steam generator with a 24.5-litre boiler and dual heating elements that provide both flexibility and high capacity. It produces up to 31.2 kg of steam per hour and is equipped with automatic water level control for safe and stable operation. With its compact, robust design and construction in accordance with the PED standard, the IGOS 25/2 is a reliable choice for industrial use and continuous production.

Description

- Double heating elements – flexible output
- Steam production: up to 31.2 kg/h
- Automatic water level control
- Compact and robust design
- Suitable for industrial use

Technical Specification

Machine Specifications

• Boiler capacity	24.5 L (stainless steel)
• Steam production	31.2 kg/h
• Steam pressure	4.5 bar (6 bar optional)
• Pan effect	12–18 kW (combined)
• Pump power	0.6 kW
• Excitement	400 V / 3-phase / 50 Hz
• Dimensions	70 × 70 × 135 cm
• Weight	130–160 kg
