Category: Pressing equipment

ROTONDI MOD EMF – Pressing table for knitted garments

MOD EMF is a professional pressing and steaming table developed for finishing knitted garments. With double steam-heated plates, a large work surface and foot pedals for control, it combines powerful functionality with gentle treatment.

- Upper and lower plates
- Large work surface: 180 x 90 cm
- Foot pedals control steam and suction

Product description

ROTONDI MOD EMF – Professional pressing table for knitted garments

ROTONDI MOD EMF is an advanced pressing and steaming table specially developed for finishing knitted garments. With double steam-heated plates and a generous working surface of 180 x 90 cm, garments are handled gently but effectively. Foot pedals make it easy to control both steam and suction, while the built-in 0.37 kW vacuum motor and a timer for precise control ensure consistent and professional results every time.

Description

- Upper and lower plates – steam-heated
- Large work surface: 180 x 90 cm
- Foot pedals control steam and suction
- Built-in 0.37 kW vacuum motor
- Timer for precise control

Technical Specification
