

Product Sheet

Rotondi FP TOUCH Series

Category: Pressing equipment

ROTONDI FP TOUCH series – Fully automatic press

The FP TOUCH series is designed for medium to large producers who demand top performance. With a touchscreen, energy-saving software and advanced heat control, it provides fast and accurate fastening.

- Available in three widths
- Touchscreen with energy-saving function
- 4+5 heating elements

Product description

ROTONDI FP TOUCH series – Automatic press for high-volume production

The FP TOUCH series is an advanced, fully automatic press designed for medium to large producers who demand high precision and efficiency. With a touchscreen and energy-saving software, control is simple and resource-efficient, while 4+5 heating elements ensure an even and constant temperature. The electronic pressure control with proportional valve provides accurate results, while the insulated PTFE belts guarantee stable and safe operation. The series is available in three widths – 122, 140 and 160 cm – to suit different production needs.

Description

- Available in three widths – 122, 140 and 160 cm
- Touchscreen with energy-saving function
- 4+5 heating elements – even temperature
- Electronic pressure control with proportional valve
- PTFE tape with full insulation

Technical Specification

Machine Specifications	
• Speed	0.8–10.1 m/min
• Press	up to 2.6 N/cm ²
• Temperature	0–200 °C
• Belt width	1220–1600 mm
• Weight	650–800 kg
• Power consumption	8.5–15.5 kW
• Installed power	17.5–23 kW
• Excitement	220–400 V / 3-phase / 50–60 Hz
