Veit 2157 Hand Finisher

Category: Pressing equipment

VEIT Hand Finisher 2157 – Flexible finishing for textiles and leather

VEIT Hand Finisher 2157 is an easy-to-use hand tool for manual finishing of garments, furniture, shoes and interior surfaces. It effectively removes creases, shine and marks, and smooths and shapes delicate materials. Combine with VEIT Steam Reheater 2218 for even and dry steam.

- Removes shine, marks and creases from all types of materials
- Ideal for finishing clothes, furniture, curtains, shoes and vehicles
- Used for final inspection or as a complement to moulding presses

Product description

VEIT Hand Finisher 2157 – Flexible finishing for textiles, leather and interiors

The VEIT Hand Finisher 2157 is a powerful and easy-to-use hand tool developed for the manual finishing of garments, furniture, shoes and interior surfaces. It is used worldwide to remove creases, shine and marks, and to smooth and shape delicate textile or leather surfaces. Together with the VEIT Steam Reheater 2218, you get dry, even steam – perfect for last-minute detail corrections and freshening up.

Description

- Removes shine, marks and creases from all types of materials
- Ideal for finishing clothes, furniture, curtains, shoes and vehicles
- Used for final inspection or as a complement to moulding presses
- Can be combined with a brush or Teflon sole for different materials
- Suitable for both textiles and delicate leather or pile fabrics
