Category: Pressing equipment

Primula Deco Plus 150 – Ironing board for large textiles

Primula Deco Plus 150 is a professional ironing board for curtains, sheets and large pieces of fabric. With a heated work surface, powerful suction function and sloping design, the fabric is held in place for even results. Equipped with curtain holders at the front and rear, Vario system, iron holder, steam and lighting – ideal in combination with the ILE or IT 1800 steam iron.

Product description

Primula Deco Plus 150 – Professional ironing board for curtains and large textiles

Primula Deco Plus 150 is a specially designed ironing table for efficient and easy ironing of curtains, sheets and large pieces of fabric. The table is equipped with suction and heat, which ensures perfect ironing results while keeping the fabric in place for controlled and even handling.

The table has a sloping work surface that facilitates the ironing of larger textiles, as well as two powerful motors and photocells that provide even and powerful suction across the entire surface. To further optimise the workflow, the Deco Plus 150 has curtain holders at the front and rear (approx. 60 cm deep each) to hold the curtain or fabric in place during ironing.

For best results, we recommend using the table together with the ILE or IT 1800 steam iron. The table is also equipped with a Vario system, iron holder with silicone plate, and steam and lighting systems for optimal working comfort.

Description

- Suction and heating function – Keeps the fabric in place and provides an even and professional ironing result.
- Powerful suction – Two separate motors and photocells ensure even suction distribution across the entire work surface.
- Ergonomic work surface – Sloping table surface and practical curtain holders make handling large textiles easy.
- Fully equipped – Includes steam condenser, iron holder, kick plates and Vario system.
- Compatible with steam irons – Recommended for use with ILE or IT 1800 steam irons.
