Primula ILE-1800s

Category: Pressing equipment

ILE 1800S – High-precision electronic steam iron

The ILE 1800S is a professional steam iron with a Thermotronic control box that keeps the temperature stable within $\pm 2^{\circ}\text{C}$. With a steam timer, ergonomic grip and specially designed soleplate, it provides even steam and gentle handling, even for delicate fabrics.

- Electronic control with Thermotronic for even temperature
- Steam timer function for constant steam at the touch of a button
- Error indication via LED and sound – quick service diagnostics

Product description

ILE 1800S – Electronic steam iron with precise temperature control

The ILE 1800S is a professional steam iron equipped with the advanced Thermotronic control box, which ensures a constant temperature with $\pm 2^{\circ}\text{C}$ precision. With a steam timer, ergonomic handle and a specially designed soleplate for dry and even steam, this is an effective and gentle tool for professional textile care – even on delicate fabrics. The system includes a cover, hose and connectors for quick installation and safe operation.

Description

- Electronic control with Thermotronic for even temperature
- Steam timer function for constant steam at the touch of a button
- Fault indication via LED and sound – quick service diagnostics
- Ergonomic handle with TPE coating and steam button
- Specially designed anodised soleplate for drier steam

Technical Specification

Machine Specifications	
Heating effect	1,250 W
Excitement	230 V
Weight	1.65 kg
Ironing board	210 x 105 mm
Additional equipment	• Aluminium vapour barrier • Teflon hose (2.5 m) • 6-pin connector • Thermotronic control box (with $\pm 2^{\circ}\text{C}$ accuracy, vapour timer and fault signalling)
