Primula IT 1800S

Category: Pressing equipment

IT 1800S – Professional steam iron with ergonomics and precision

The IT 1800S is an electric steam iron with a built-in thermostat and ergonomic TPE handle. The anodised soleplate provides drier steam for even and gentle results even on delicate fabrics, while its robust construction and simple connection make it reliable for professional use.

- Equipped with a mechanical thermostat for stable heat control
- Ergonomic TPE handle with steam button for continuous steam
- Anodised soleplate for drier, more even steam distribution

Product description

IT 1800S – Electric steam iron with classic controls and modern ergonomics

The IT 1800S is a professional steam iron with a built-in thermostat and an easy-grip, ergonomic handle with TPE coating. The iron has an anodised soleplate that provides drier steam for smoother and gentler results, even on delicate fabrics. With its robust construction, aluminium cover and easy connection, it is a reliable choice for professional use.
