

Product Sheet

PFAFF 8303ix

Category: Welding machines

PFAFF 8303ix – Efficient, high-quality tape sealing

The PFAFF 8303ix is a hot air machine for tape sealing water-repellent and breathable materials. It offers increased productivity, reduced tape waste and seams of the highest quality – ideal for clothing, sports and outdoor products, and protective clothing.

- Electronic tape cutter for precise tape width
- Up to 20% higher productivity
- Differential feed for even tape distribution

Product description

PFAFF 8303ix – Tape welding for precision technical sewing

The PFAFF 8303ix is an advanced hot air machine for tape sealing seams in water-repellent and breathable materials. The machine offers increased productivity, reduced tape waste and outstanding seam quality – perfect for clothing, sports, outdoor and protective garments.

Description

- Electronic tape cutter for precise tape width
- Up to 20% higher productivity
- Differential feed for even tape distribution
- Touch screen with programme memory
- Adjustable column width for different materials

Technical Specification

Machine Specifications

Speed	up to 7 m/min (20 m/min optional)
Temperature	maximum 650°C
Tape width	8–30 mm
Air consumption	approx. 150 l/min at 6 bar
Electricity	230 V, single-phase, 50/60 Hz
